The Universality Framework — Elementary Edition

****For curious kids.**** We use small words, pictures, and quick games.

1) Be Fair Together (Symmetry)

Rules that help ****everyone****: we all get to be here, learn, help, know what's going on, and see what affects us. ****Game:**** Make a class rule that helps shy kids speak. ---

2) Many Paths → Your Path

There are lots of paths (maybes). You pick one now. That choice changes the next paths.

Picture 2.1: A little tree of paths; one is bold. ****Try:**** Name three good next steps; choose one. ---

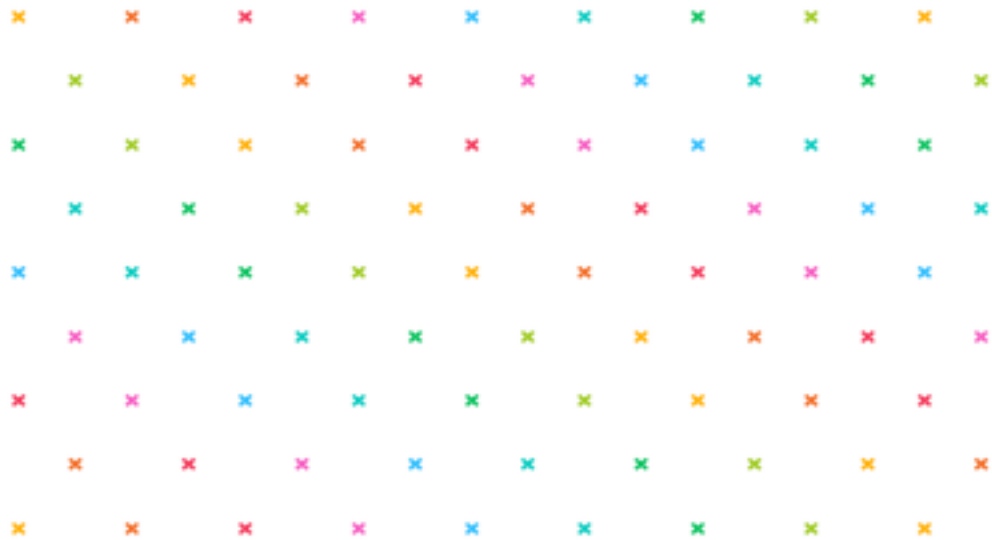

Many Paths → Your Path

3) Your Pattern

Tiny choices make a picture of “you.” *Picture 3.1: Little dots in a neat pattern.* **Try:** Color a 3×3 grid with kind acts you do. ---

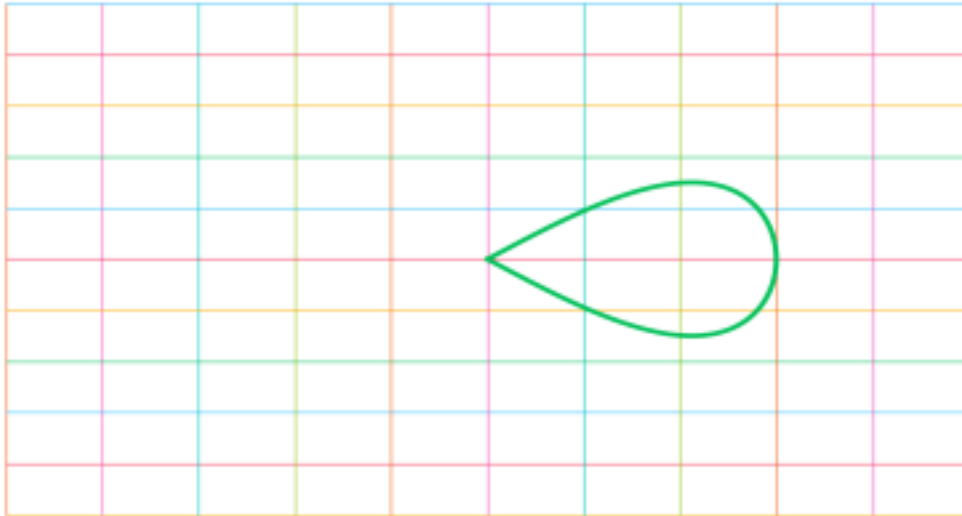

Little Dots, Neat Pattern

4) A Small, Kind Record

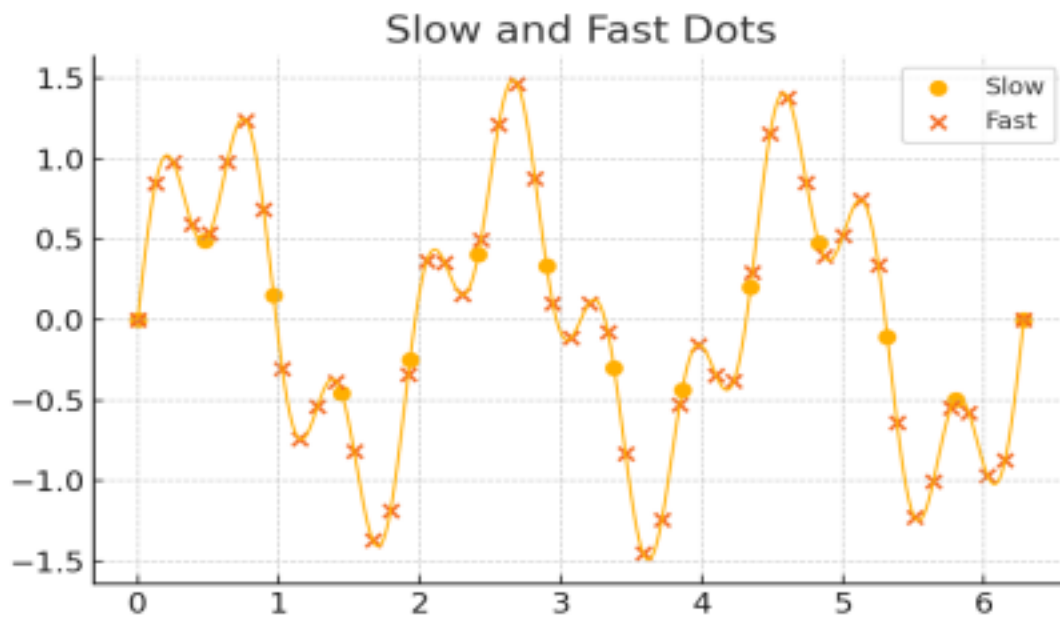

We don't save everything—just what we need to be fair and to fix mistakes. *Picture 4.1: A border pattern shows the whole picture.* ---

A Border Pattern Shows the Picture

5) Time You Make

Paying attention changes how fast time *feels*. *Picture 5.1: Two lines of dots, slow and fast.* ---

6) Quick Tune■Up

Stop, breathe, pick a better small move. ---

7) Growing Together

Share good ideas; keep the ones that help everyone. ---

8) The Big Cycle

When our body stops, its energy goes back. Our ****pattern of kind choices**** can still teach.

Next time, we try even kinder. *Picture 8.1: Paths → choice → kind record → better start.* ---

Paths → Choice → Kind Record → Better Start

9) Our Class Garden

We check: Did we play fair? Did our pattern get clearer? Did others grow because of us?

Picture 9.1: Three bars—fair, clear, help.
